

What's the connection?

HPV, Cervical Cancer and the HPV Vaccine

A distinguished panel of physicians will discuss HPV, how it's related to cervical cancer and the newest vaccine. This program is designed especially for women and young girls interested in examining all the issues related to this serious problem. Learn who is at risk, how you can protect yourself, available treatments and if you or your daughter should consider the vaccine.

Date: Wednesday, May 30, 2007

Time: Registration/Dinner 6:30 PM - Program/Panel 7:00 – 8:30 PM

Location: Russo's Catering & Restaurant, Rt. 28 (Union Ave.) Bound Brook

Speakers: Phillip Glass, MD, Randi Protter, MD, Jim Tursi, MD

The Somerset County Cancer Coalition, a program of the County Health Department, is made possible by a grant from the New Jersey Department of Health and Senior Services' Office of Cancer Control and Prevention. This program is also supported in part by Somerset Medical Center and The Women's Health and Counseling Center.
