## Preparing Individuals and Communities

- Everyone should follow general guidelines for hand hygiene and for preventing disease, as noted in the [“How Can I Protect Myself from the New Coronavirus?”](#) section above.
- Monitor yourself and your family members for symptoms of COVID -19. Mildly ill patients should be encouraged to stay home and contact their healthcare provider by phone for guidance about clinical management. Patients who have severe symptoms, such as difficulty breathing, should seek care immediately. Older patients and individuals who have underlying medical conditions or are immunocompromised should contact their physician early in the course of even mild illness.
- You should continue to social distance – this means keeping about 2 arms’ length between you and other people.
- Face coverings are now required in outdoor public spaces when social distancing is not practicable. \*Exceptions for individuals eating/drinking at an outdoor dining establishment, when wearing a mask would inhibit health or safety, or individuals under 2 years old. For more information about how to make and wear masks properly, visit: [www.co.somerset.nj.us/health](http://www.co.somerset.nj.us/health).
