The Somerset County Green Leadership Hub's newly formed Steering Committee would like the opportunity to meet Municipal Elected Officials, Staff and Green Team Members to discuss and learn more about Sustainable Jersey in your communities.

This event will provide attendees with an update on what the Hub has been working on, and what its upcoming goals are for 2016. This will also be an opportunity to meet the members of the Steering Committee, and talk with them about your accomplishments and upcoming goals, as well as to offer input on the Hub's priorities moving forward.

Finally, this event will provide the space and time for municipalities to interact, learn from each other, and potentially collaborate on projects in the future.

Please see the attached agenda, and register using the information below. Seating will be limited, so registration is required by January 20, 2016.
